## Living in the kitchen.

What is the essence of a kitchen? It needs to look good, be a centre of communication while cooking, chatting and indulging. To make your work easier and keep everything well organised. And by the by, to fulfil your wishes and requirements. While also reflecting your style whatever your budget may be.

Nolte Küchen has been synonymous with first-class quality, superior design und perfect ergonomics made in Germany for over 60 years. This being the case, it's no surprise that Nolte Küchen has been voted "Germany's favourite kitchen brand" for the third time in succession. Worldwide too, people in over 60 countries have come to appreciate what sets Nolte Küchen apart.

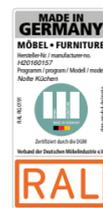

In this journal you will find countless suggestions and ideas on designing a kitchen as a living space that meets your personal wishes in every respect. So, be inspired for: living in the kitchen.

For the third time in succession: Germany's favourite kitchen brand.

The golden M guarantees proven quality, safety and healthy living.

We produce in Germany – also officially certified by the Verband Deutsche Möbelindustrie Deutschland e.V., the association of the German furniture industry.

A healthy environment is also the basis of our track record of success. It is for this reason alone, that we work on a climate-neutral basis.

In this Journal, we have highlighted kitchens with distinctive features:

**MATRIXART** – the handleless Nolte kitchen

**MATRIX900** – base units in a height of 90 cm with 20% more storage space

**MATRIXART900** – the handleless Nolte kitchen with base units in a height of 90 cm

Our kitchens captivate with high-quality materials:

**ECHT LACK** – The fronts are finished in multiple coats of high-gloss or soft mat lacquer for the most exacting of demands.

**ECHT LACK LAMINAT** – A surface that is both easy to keep clean and hard-wearing, high gloss or soft mat depending on finish.

**ECHT METALL** – Layers of a blend of resins, lacquer and particles of metal make the front magnetic.

**ECHT HOLZ** – As an authentic and genuine natural product, real wood conveys warmth and a sense of security.

**ART WOOD** – The authentic melamine resin surface perfectly creates the illusion of real wood.

**ECHT ZEMENT** – Each one of these hand-crafted fronts has a surface made of real cement and is one of a kind.

**ECHT GLAS** – Real glass, very high-quality surface made of back-lacquered safety glass.

**SCHICHT STOFF** – Extremely hard-wearing and also low-maintenance thanks to the anti-fingerprint surface finish.

**40 25 12** – Worktops and end-panel elements used, thickness in mm.

The kitchen is the room of rooms.  
We probably *live* more,  
and more *intensively*,  
here than anywhere else in the home.  
It is the place where  
we meet, where we encounter others.  
As family or friends.  
As a couple.  
We *cook*, *eat* and *enjoy* ourselves  
in the kitchen. And sometimes we have  
all the time in the world as we do so.  
We argue. And *make up* again.  
We read, write, send emails, post messages.  
And maybe philosophise a little.  
And – quite secretly – the kitchen sets  
the rhythm of our day.  
Good morning. Then midday. Then evening.  
And sometimes night ...  
Which is *why we love* the kitchen.

# *Living* in the kitchen.

## LIVING IN THE KITCHEN

"The kitchen is a room for cooking in. That was yesterday. Today it has become the communication hub of the home and haven of well-being. Cooking, eating, talking, laughing, living, relaxing, working – life takes place in the kitchen. That's why this room is taking on more and more significance in the home.

In choosing a kitchen, you are also choosing a whole world. Living in the kitchen has many sides to it, is individual and, above all, also a matter of your personal style. And style can also be expressed in many different ways: in fashion, in the home, in the music you like, and much more besides. So why not in the kitchen?

The good part about Nolte Küchen: individual taste and personal style are not a question of budget. And if, after browsing through this journal, you decide you would like a new kitchen, then you can get right down to planning it: **with the Nolte Küchen web planner at [www.nolte-kuechen.com](http://www.nolte-kuechen.com).**"

- 2 NOVA LACK Platinum grey, elegant and exclusive
- 3 PORTLAND Cement sapphire grey, with real cement surface

## EVERYTHING ELSE IS DREARY

Do you like a homely, elegant look or prefer it classic?

Whichever – Nolte Küchen gives you all the options. Volcanic oak, for example, lets you transform any kitchen into a homely living space. The combination of on-trend platinum grey and henna red creates an impression that's only elegant but says quality too. This is where it's all a matter of your personal preference. Do you have a liking for genuine materials? Here too, Nolte Küchen has a lot to offer you. PORTLAND cement sapphire grey, for example. The front has a surface made of real cement and is hand-crafted.

## MANHATTAN / SOFT LACK

### PERFECT SYMBIOSIS OF STORAGE SPACE AND DESIGN

The MANHATTAN front in volcanic oak provides contrasts galore. Its distinctive decor ideally complements the calm SOFT LACK front. The wall unit height of 105 cm also gives this kitchen a very individual look. The units are perfectly complemented by the open shelves and a white lowboard.

**NOVA LACK**

**PRACTICAL CAN BE AS STYLISH AS THIS**

An elegant, high-quality kitchen ambience is a joy and pleasure every day. All the more so when it also provides plenty of storage and space for what's dear to you. Illuminated handle trims emphasise the horizontal lines of this kitchen which manages entirely without kitchen-typical wall units while still providing plenty of storage space.

**NOVA LACK**

WHITE CAN LOOK AS  
MODERN AS THIS

Anyone wishing to follow the trend towards a tidy, clean-looking kitchen with generous, large surfaces has no other option: tall units and appliance cabinets with uninterrupted doors. The minimalist impression is reinforced yet further by the illuminated MatrixArt finger pull profiles. The new oak Barriqué worktop decor provides the appropriate, contrasting surrounding elements, which is also reflected in the floating wall shelves.

- 1 Mixer, espresso machine or juicer: many kitchen appliances have become lifestyle objects. When they start to get out of hand but are still needed every day, this is where a top-mounted unit with lift-up door comes into its own.
- 2 Illuminated MatrixArt finger pull profiles underscore the clean look of the uninterrupted fronts on tall and appliance units.

## FERRO / SOFT LACK

### PURIST WITH CLEAN LINES

With its real metal front, FERRO blue steel creates an impression of cool elegance in the kitchen that is given a contrasting bright, light note in the combination with SOFT LACK arctic white soft mat. Making the kitchen an inspiring area where people just love to be.

## MANHATTAN

### OAK GRAPHITE SILVER FOR INDIVIDUALISTS

The MANHATTAN front in oak graphite silver is a welcome, uncomplicated combination partner. It provides many different options and captivates with its expressive graining – whether tone-in-tone or, as shown here, with elements in black.

**TITAN**

**SLEEK LINEARITY WITH ACCENTUATIONS**

In this graphic and sleek configuration with the handleless fronts from TITAN range, the surrounding elements in rustic wild oak create a warm and homely statement. The wall unit with the open shelf unit and the slim-line frame as well as the slender worktop in wood tone harmonise perfectly with the classy graphite to give this kitchen its very special charm.

TITAN Graphite

## EVERYTHING STORED – NEXT TO THE KITCHEN

So, what sort of utility room would you like to have? This, of course, depends entirely on the space you have and on your personal needs. Some prefer to use it as a storage room for household items, others turn it into a lovely dressing room with numerous drawers providing plenty of space. Just as you please. Or create the perfect room divider: on the one hand a practical utility room with everything that goes with it, and, on the other hand, an attractive hallway area with coat rack and wall unit as a chest of drawers – where keys can be kept, for example.

**TAVOLA / PLUS**

**ELEGANCE WITH  
A MODERN TOUCH**

Stylish home comfort in real wood: TAVOLA oak pinot adds a new, understated elegance to the natural and traditional material oak. In combination with plain colours such as PLUS white soft mat seen here, the result is a timeless kitchen that delights with many homely details. The PLUS laminate front comes with a particularly low-maintenance anti-finger-print surface.

## DESIGN MEETS STORAGE SPACE

With Matrix900, Nolte Küchen has sent out a design message and makes the crossover between kitchen and living area even more fluid: the very shallow plinth in conjunction with the 900 mm carcass height not only provides an ideal working height with a huge amount of storage space but also creates a totally new kitchen look.

## THE ART OF OMISSION

"MatrixArt900 also makes handleless possible: the handle trims integrated in the carcass make the kitchen even more graphic and sleek. A completely new dimension in kitchen architecture."

*Eva Brenner, interior designer, familiar from Germany's "Zuhause im Glück" (Happy at Home) TV programme.*

## LUCCA

### CEMENT LOOK IN PERFECTION

Do you love the on-trend cement look but don't want to invest in the genuine material? This makes the LUCCA front just the right choice for you! Anthracite combined with beech heart creates a kitchen with well-balanced contrasts. With the front being an authentic reproduction, there's bound to be enough of your budget left over for adding all sorts of other features to your kitchen – and all without having to sacrifice a stunning look either.

**+32% more storage space**

- 1 The classic corner unit with carousel makes perfect use of your kitchen's corner space.
- 2 Plenty of cupboard space: a carcass that's 15 cm deeper than normal provides storage space galore. Drawers can even be fitted below induction hobs.

**STONE**  
INSPIRED BY NATURE

Surfaces and materials borrowed from nature are impressively combined in STONE concrete with surrounding elements in holm oak. The concrete look is an unconventional design statement and also continuous through in decor form inside the unit – consistency you only get from Nolte Küchen. The combination of expressive decors is particularly effective in conjunction with the impressive and interesting look of the counter element.

## PLUS / MANHATTAN

### TRENDY GREY IN ITS FINEST NUANCES

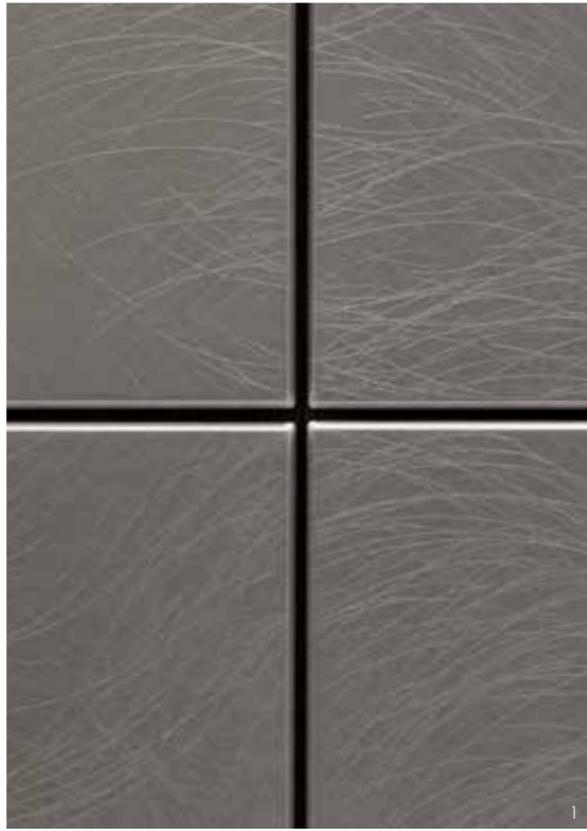

More than easy to look after: PLUS quartz grey soft mat impresses with its laminate in anti-fingerprint surface finish. A practical, beautiful detail: the end panels on wall units, base units and kitchen island are also made of the same low-maintenance material. In combination with MANHATTAN holm oak, this kitchen presents a clear design statement that is reinforced by the open shelf unit. The worktop in quartz grey PRO proficiently complements the overall impression.

## NEW CLASSIC – UNDERSTATED ELEGANCE

Traditional meets modern. Elegance unites with character: the NEW CLASSIC is an inspiring combination of the new and proven that creates a truly unique look.

Citations from Art Deco are reflected here in just the same way as architectural elements. Together with many other details, the result is an elegant and understated style. Experience the fascination of an entirely new and exceptional design.

This is where you will find more information on the New Classic.

**TORINO LACK / CARISMA LACK**

**CLEAR STRUCTURES WITH FEEL-GOOD CHARACTER**

Perfectly balanced interplay of form, colour and surface finish. Between bygone days and postmodernism: a breath of the Roaring Twenties attractively combined with the modern age, creating a kitchen that makes a style statement with its clean and elegant lines. The fronts in calming lava soft mat grey tones and the quality-looking solid wooden drawers are stylishly accentuated by the manganese bronze on display unit, handles and mixer tap.

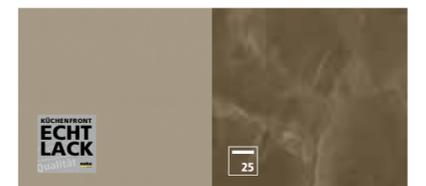

- 1 The handles skilfully create highlights from the glamorous Art Deco world.
- 2 High-quality drawers in veneer, oak pinot are an exclusive detail.

### FASCINATING WORLD OF CONTRASTS

The combination of the TORINO LACK front in white with the worktop in black PRO creates a delightful contrast that essentially defines the overall character of this kitchen. Interesting details, such as shelf units with ingredient dispensers and cross inserts in oak barolo, complement the look. Together with the hob base unit in ingredient dispenser look, they create an individual overall impression with a unique, personal touch.

## SOFT LACK / LEGNO

### MODERN NATURAL AUTHENTICITY

When a white, modern genuine lacquer front meets the natural radiance of wood, then the result is this special feeling of clarity and liveliness. As in the combination of SOFT LACK white soft mat and LEGNO oak champagne. The lines of the MatrixArt handle trims help to ensure that, despite its openness, this kitchen never fails to impress with its clear structure and consistent, sleek linearity.

- 1 Unpretentious and gripping – the white lacquered front looks classy and goes perfectly with the real wood front in oak champagne.
- 2 The vertical lines of the handle trim are a stylish design element and add emphasis to the kitchen's sleek linear look.

**CLASSICS  
RE-INTERPRETED**

The narrow framing on the FOCUS front is unfussy, lightweight in looks and almost purist in design. The appliance block interrupting the row of units at the back gives this kitchen a look that could, for all intents and purposes, be American in the way it feels. Illuminated display cabinets as base units open up the island to the living area. Welcome!

- 1 Provide plenty of storage space: wall units in a height of 105 cm.
- 2 Well-organised drawers and illuminated pull-outs quickly show you where everything is.

## IDEAS FOR CREATING SPACE

The optimum kitchen is always matched to the specific needs of its users. And these are as different as the characters and the lifestyles of the individuals themselves. For instance, the needs of a family of four are completely different to those of people living on their own. Different structural situations also play a big part in planning a kitchen. This is why Nolte Küchen offers all sorts of ideas and options for designing the kitchen in exactly the way its users need it to be. This all starts with careful planning and continues through to smallest of details. See for yourself on the following pages.

Ask your kitchen retailer for further information or order your copy of "My Kitchen" right here.

This is where living in the kitchen writes many a lovely story: discover home stories from contented owners of Nolte kitchens.

## OUR PERFECT KITCHEN

"We sat down with the expert adviser at the kitchen retailer and put together the perfect kitchen for us. And the result not only looks stunning, it also impresses with all sorts of intelligent details and ideas that make living in our new kitchen an absolute pleasure."

- 1 Optional interior lighting sets off the drawers and pull-outs and provides a even better view of everything inside.
- 2 32% more storage space than in standard base units – all made possible by the 750 mm planning depth.

The pull-out units provide perfectly organised storage space in a width of up to 1200 mm. The 750 mm planning depth provides 32% more storage space than in standard base units. And all this with just another 150 mm from the wall.

## IN THE KITCHEN, ORGANISATION IS HALF THE BATTLE

"On the subject of interior organisation, we were completely taken aback by the line-up that Nolte Küchen has to offer: starting with anti-slip mats to variable cutlery and utensil dividers in plastic or even real wood, it simply leaves you wanting for nothing. We went for the option in real oak and chose it for our kitchen – this way, everything is always in its place and the drawers and pull-outs are perfectly organised. The oak colour shade goes perfectly with the quartz grey fronts."

## COOKING: A SHARED EXPERIENCE

"Our kitchen centres around cooking together!  
When it came to choosing the most suitable hob for us, the planner's experience didn't let us down either, nor did the options available to us from a Nolte kitchen: here, everything's possible, be it induction hobs or gas, retracting extractors, downdraft extractors or also the classic extractor hood. This is precisely what we ultimately decided on, it simply goes best with our kitchen!"

1 Integrated downdraft extractor.  
2 Hob with retractable extractor in the worktop.

## FOR OPTIMUM WORKFLOWS

"To ensure efficient workflows in the kitchen, we looked at the best ways of making work paths ideal while we were planning it. As a general rule here: while the refrigerating/food storage, cooking and dishwashing zones should be no more than two arm lengths apart, there should also be sufficient space for two people to cook in. This has been solved perfectly in our kitchen. Which means we don't get in each other's way when we're cooking."

## THE MEASURE OF ALL THINGS

"Let's be honest: if you like cooking as much and as often as we do, the kitchen should fit in with us and not us with the kitchen. Because, in the long run, this is the only way that makes a kitchen a joy and pleasure to work in. With Nolte Küchen, it was so reassuring to know we could fit the oven at eye level and even raise the dishwasher as well. Needless to say, we were also able to define the height of the work surface."

1 Ergonomic and practical: the oven at eye level.

2 Kind on the back: the raised dishwasher.

## EVERYTHING CLEAN IN A FLASH

"We both love to cook and, of course, this always leaves you with waste and dirty pots. So it was important for us to know right from the start that we can quickly get the kitchen cleaned up again once we have eaten. This is where the large sink with a good-sized draining board is a huge help because it means we can easily and quickly clean pots and pans we can't put in the dishwasher. To sort waste, we went for the classic option under the sink – it's organised and saves us the bother of having to take it anywhere else. And because the waste bins are suspended in a frame, we're not constantly cleaning the pull-out either because there's nowhere bits of waste can accidentally fall into."

## CHILLED, FRESH OR NON-PERISHABLE ...

"... in our kitchen, there are so many different things we need to find a place for: from kitchen appliances, cookware, plates and cutlery to all sorts of food and provisions. In the larder unit, for instance, we keep all types of non-perishable food that needs to be in easy reach all the times. Fresh food goes in the large refrigerator. In planning our kitchen, we chose a solution without any corners because that's best for the space we have. But with Nolte Küchen, of course, we would also have found loads of clever ideas for the corner, such as the practical LeMans corner base unit."

2

- 1 Practical and a storage space wizard: the "classic" larder unit.
- 2 Practical and space-saving: LeMans corner base unit solution.

## A LOOK OF HARMONY THROUGHOUT

"This feature, in particular, made us realise we were making the right choice: unlike most other brands, all Nolte Küchen units are finished in the same decor both inside and out, no matter which of 15 carcass decors you choose. This initially sounds like a trivial detail, but in fact it has a huge impact on the homely feel it creates: for our wall units, this means that instead of sterile white, they are finished in the same wood decor on the inside too. It fills me with joy whenever I open the cupboard. Then there's also the "edge seal" at the carcass front. It makes sure less dust gets inside the kitchen unit."

- 1 Sealing off the carcass at the front, the edge seal makes sure that less dust gets inside the unit.
- 2 Perfect inside and out, not only for wood decors but also for concrete and plain colours.

## QUALITY IS A MATTER OF DETAILS

We accept no compromising when it comes to quality. Stringent testing provides the basis for ensuring that your kitchen will continue to be safe and reliable even after many years of use. This is also guaranteed by the GS label for tested safety. More important for you, though, is the high level of quality you experience every day in your Nolte kitchen, quality that is noticed in all the many details and features.

## FIRMLY INTEGRATED IN NOLTE KÜCHEN: RESPONSIBILITY AND ECOLOGY

Conserving natural resources, keeping air and water clean and promoting sustainability. Three key pillars of responsible and sound ecological practice that have been anchored at Nolte Küchen for many years. For instance, with modern filter systems for non-polluting production or with eco-friendly, recyclable packagings and only using timber from sustainable and responsible forest management. In terms of pollutant emissions, our materials fall well short of the requirements defined by law. The best conditions for living at home in a healthy environment.

Official inspection certificates and test labels also confirm our devoted commitment to the environment in all key domains – this is something that makes us particularly proud. We are one of the first in our industry to receive the FSC® label and hold PEFC™ certification.
